MongoDB and MongoDB Atlas are free to try!

See Install MongoDB to install MongoDB locally or follow Getting Started with MongoDB Atlas to create an Atlas cluster on the cloud provider of your choice (**AWS**, **Azure** or **GCP**).

Create a **free tier cluster** by selecting a region with **FREE TIER AVAILABLE** and choosing the **M0** cluster tier.

You can modify a free tier (M0) cluster to scale up to a paid instance at any time. Your data is automatically migrated when you scale up.

MongoDB Compass, our GUI for analyzing and understanding the contents of your data, is also free to try.

MongoDB University courses are also free!

bUT how i can access mongodb compass from remote like mongodb atlas is on cloud

since atlas is on cloud we can access from local as well as remote but how can i connect from compass?

On Mon, Feb 28, 2022 at 07:06 PM, "Jagdish Jagtap" <jagdish.jagtap@mongodb-288c692930e1.intercom-mail.com> wrote:

Thanks for being patient,

To let you know, unfortunately, If the documents exceed a certain size, the Atlas Data Explorer limits the number of documents shown to prevent long load times. Sometimes this occurs even with collection sizes that are 1 MB total.
As an alternative as a workaround, MongoDB Compass can be used in this case.
Can I ask that you please go to the MongoDB Feedback Engine to see the previously submitted ideas and vote for the suggestion(s) that matter most to you?

If your idea has not yet been submitted, please post a new suggestion via the *Post Idea* section.

We are continuously looking to improve and your opinion, with the rest of our community, genuinely impacts our changes.

You can use the feedback engine to watch for status updates to see if your idea is slated for an upcoming release.

You may also be interested in keeping an eye on our blog posts for feature announcements.

Thanks for explaining it to me Sumit.

So the average document size is 1.79 MB?

Basically from a node server

Upto this point I was just copying the connection string given atlas and putting that inside my environment variables
